### **DENNIS K. BURKE, INC. TO HOLD E85 RIBBON-CUTTING CEREMONY**

Dennis K. Burke, Inc., plans to hold a grand opening on Thursday, June 26th at their new biofuels center in Chelsea, Massachusetts. The celebration marks the first station in Massachusetts to offer E85 Ethanol at the pump. The station already has the distinction of being the first in Massachusetts offering Biodiesel at the pump.

Thursday's ribbon cutting at 10:30 a.m. will be hosted by company President, Ted Burke and Chairman of the Board, Ed Burke. Chelsea City Manager Jay Ash will emcee the event. Several state and local officials, as well as "green" industry friends are expected to attend.

Located at 410 Beacham Street in Chelsea, flex-fuel vehicles owners in the area are invited to take part in the state's E85 debut. Following the ceremony, General Motors will sponsor E85 fill-ups at a special low price for 85 minutes (flex-fuel vehicles only).

Well established in the green arena, the Chelsea-based company recently began operations in their new biofuels storage facility in Holyoke, MA. The storage facility will help Burke keep pace with growing demand for cleaner fuels like Biodiesel and Bioheat.

Burke is one of New England's largest suppliers of diesel fuel, gasoline and motor oil products. The family-owned business has over 45 years of reliable service.
