

**Order Now!**  
**EPA-Compliant**

**DELIVERY TICKET RUBBER STAMPS**  
**TO MEET WORDING REQUIRED UNDER EPA REGULATIONS**  
**FOR USE WITH STANDARD INK PADS**

On June 1, 2006, the U.S. EPA began requiring new product descriptors on all product transfer documents (PTDs) for diesel fuel and kerosene. In June 1, 2007, new descriptors were required on PTDs, including shipping papers and delivery tickets, for heating oil. Under the rule, this wording must appear on all copies of the ticket and even on deliveries of heating oil or kerosene to the residential homeowner. **Failure to use the appropriate PTD descriptor may lead to a violation of up to \$32,500 per day, per violation.**

Now available through the New England Fuel Institute (nefi.com): stamps containing the required language for easy application by fuel dealers in the Northeast/Mid-Atlantic (NE/MA) area. Stamps are \$20 each and contain EPA-approved fuel product descriptors. Stamps are rubber and designed for use with an ink pad (not included) in a color of your choice, as long as the color stands out against the background. We recommend that you obtain NEFI's NE/MA-area compliance kit regarding complete information on these regulations before using the stamps. It is available free to NEFI members and available to non-members for \$50.

**1. Complete order form below**

FUEL TYPE	STAMP READS	COST	QTY	TOTAL
<b>Heating Oil</b> <i>Distillate used for space heating.</i>	Dyed Unmarked Heating Oil: Not for use in highway, nonroad, locomotive or marine engines.	\$20 ea	_____	\$_____
