

Comprehensive Safety Analysis 2010 (CSA 2010)

One Hour Webinar - Thursday, August 26, 2010(2:00 – 3:00 pm E.S.T.)

\$50.00 per student NEFI Members - \$100.00 per student Non-Members

Registrants will be provided with dial-in and login details upon receipt of student registration.

In November 2010 the Federal Motor Carrier Safety Administration (FMCSA) will replace the current SafeStat system and switch compliance monitoring over to the new Comprehensive Safety Analysis 2010 (CSA2010) System.

CSA2010 will identify motor carriers who are not in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs). After this system goes online, more and more motor carriers who are failing in their obligations will find themselves answering to FMCSA.

Foley Services will lead you through the complex, hard-to-follow new methodology. This guide will cover:

- The complex structure of CSA2010
- New consequences of violating regulations
- The BASICS — individual areas of compliance
- How violations are computed against motor carriers
- How violations are computed against drivers
- The violation weight tables CSA2010 will use to review compliance
- All motor carriers will need to be prepared for CSA2010.
